Cameco in northern saskatchewan

Temporary Suspension Underway at McArthur River & Key Lake

Care and maintenance until
November 2018

What's happening at the sites?

The McArthur River mine and Key Lake mill are in care and maintenance for an expected 10 months (Feb to Nov 2018).

For the remainder of the shut down, operational focus continues with ongoing water treatment and environmental monitoring activities. Essential staff is on site to ensure all critical activities are maintained and emergency response teams are available.

New office for Rick

Rick Robillard, our Black Lake and Stony Rapids community liaison has a new office.

You can find Rick at the Black Lake Ventures Building on Teacher Place in Black Lake.

Northern Saskatchewan Scholarship

“Despite the tough economic times today, Cameco remains committed to our northern partners,” says Tim Gitzel, president and CEO. “We want to support the future success of today’s northern youth and education is key to long-term success.”

With those words, Tim Gitzel announced a new Cameco Northern Saskatchewan Scholarship which is set to begin this year. The scholarship is a dedicated program, specifically for residents of Saskatchewan’s north who are seeking funding for post-secondary education.

Up to \$5,000 is available to each applicant. With the opportunity

to renew up to four terms, this means some students could have their entire degree or certificate funded through the program. A total of \$50,000 has been allocated to this scholarship program in 2018.

Besides this opportunity, northern community-led scholarship programs, funded through collaboration agreements with our partners, enable even more educational options for northerners. As well, several other scholarships are sponsored directly by Cameco.

In total, this fall, more than \$200,000 will be available to students pursuing post-secondary studies.

Details of each scholarship program are available at:
